Sponsorship Opportunities

700km Cross Province Walk for HD

Provost, AB to Roblin, MB

July 10, 2017 – July 31, 2017 (anticipated)

bit.ly/GregSKwalk

Greg Shwaga and the Huntington Society of Canada invite you to support this exciting cross province journey! The **700km Cross Province Walk for HD** provides an opportunity for your business to gain valuable exposure while contributing to cutting edge research and community support services for families in need. Please consider sponsoring me through providing a pace car, shoes, athletic gear, water, food or cash sponsorship to support these costs of my journey. In return, I will display your logo on my walk shirt, list you on my online fundraising page as well as mentioning your sponsorship on my blog.

What is Huntington disease?

Huntington disease (HD) is a genetic disorder with devastating effects on both the mind and body. About 1 in every 7,000 Canadians has HD, but 1 in every 1,000 is touched by HD whether as a caregiver, a family member, or a friend. The Huntington gene is hereditary and dominant, which means that each child born to a parent with Huntington disease has a 50% chance of sharing the same fate.

Family is at the heart of our community. Our families and volunteers tell a powerful story of caring people who pull together to improve the quality of life for Canadians impacted by HD. The good news is, with recent medical breakthroughs, many researchers and scientists believe that once we are successful in stopping the progression of HD we may also find the answers to many other neurological diseases such as Alzheimer's, Parkinson's and Schizophrenia. ***Your valued support will bring us one step closer to this goal.***

What is the Huntington Society of Canada?

The Huntington Society of Canada (HSC) is a not-for-profit charitable organization which raises funds to deliver counselling services to support individuals and families living with HD and to fund medical research to delay or stop the progression of the disease. The Society also works with health and social services professionals who interact with people with HD, educating them on the disease so that they can better serve their clients.

As a caring community partner, I ask that you please consider a donation to this event. With your help, HSC can continue to offer community support to families in need and fund important research projects that are searching for a cure. This is your chance to be part of the solution for those suffering from this terrible disease. Now more than ever is the time to step up and help in the fight against HD!

Thank you,

Greg Shwaga
